AMENDMENT
OCT 05 2004

In response to the Office Action pertaining to this Application mailed 8/24/2004, please amend the above-identified Application as follows:

Amend the Claims as Follow:

1. (canceled)
2. (currently amended) An automatically adjustable rear suspension for a trike comprising a supply of pressurized gas pneumatically connected to a valve, at least one air spring pneumatically connected to said valve, said air spring being disposed between a trike swing arm and a trike frame, said valve being mechanically attached to said swing arm by means of a valve pushrod, said trike swing arm comprising at least one L arm, each said L arm comprising an L arm horizontal member rigidly attached to an L arm vertical member, each said air spring being disposed between one said L arm horizontal member and said trike frame.
3. (currently amended) The automatically adjustable rear suspension for a trike of claim 2 wherein said trike swing arm further comprises an axle, said valve pushrod mechanically connecting said axle and said valve.
